CET257 Enterprise Project: Assignment 3

Weekly Reflection: Week 2

Name	Shilu Chuke
Team	Team Speed (Team 6): Lift Right
Role	Team Leader and Project Manager
Week	Week 2 (18 to 24 July 2026)
Project phase	Form
Focus this week	Securing the client and starting the A1 documents

1. What I did this week

- Chased the client for a reply and secured the team's first client meeting.
- Started drafting the A1 Introduction (project purpose and target users).
- Recorded the Week 2 minutes and agreed next steps with the team.

2. Supporting evidence

Held in my ePortfolio (evidence section): Weekly meeting minutes, Week 2; Client emails; Introduction and PACT analysis (draft).

3. Reflection

What went well	Following up persistently worked: contact with the client was re-established and a first meeting was booked. Splitting the A1 drafting between Swikriti and me kept the documents moving while the developers worked on the prototype.
What was difficult, and what I would change	The team could not progress requirements until the client replied, and I had no control over that. I should have prepared a second client option earlier in case the first stayed silent.
How the group performed	The developers (Sparas and Namshu) got a first-person Three.js scene running with WASD and mouse-look, which gave the team early confidence. Everyone completed their tasks on time.
Skills I used or developed	Persistence in client communication, written follow-up and delegating drafting work across the team.
Plan for next week	Hold the first client meeting, write up the notes and draft the Requirements document.
