CET257 Enterprise Project: Assignment 3

Weekly Reflection: Week 7

Name	Shilu Chuke
Team	Team Speed (Team 6): Lift Right
Role	Team Leader and Project Manager
Week	Week 7 (22 to 28 August 2026)
Project phase	Deliver
Focus this week	Presentation plan finalised

1. What I did this week

- Finalised the presentation plan with per-speaker timings and ran the team through a first read-through of the running order.
- Confirmed the backup plan (recorded demo video and screenshots) in case the live demo failed.

2. Supporting evidence

Held in my ePortfolio (evidence section): Weekly meeting minutes, Week 7; Presentation plan and responsibility chart.

3. Reflection

What went well	Fixing who speaks, when and for how long before the slides were finished meant the deck was built to the running order, not the other way round.
What was difficult, and what I would change	Balancing the timings across four speakers within 20 minutes meant cutting content I would have liked to keep.
How the group performed	The bugs from Week 6 were fixed and re-tested by Sparas. Swikriti completed the full slide deck. Everyone delivered on time.
Skills I used or developed	Time management and contingency planning. I learned to write a risk plan that names the fallback and its owner.
Plan for next week	Coordinate the full rehearsal and confirm the backup video plan.
