CET257 Enterprise Project: Assignment 3

Weekly Reflection: Week 11

Name	Shilu Chuke
Team	Team Speed (Team 6): Lift Right
Role	Team Leader and Project Manager
Week	Week 11 (Late September 2026)
Project phase	Evaluate
Focus this week	A1 pack finalised and B3 evidence gathered

1. What I did this week

- Finalised and checked the A1 submission folders (A1 to A7); the pack was assembled on 25 September.
- Started the B3 client interaction report and built the evidence index, reviewing every client email, log and signature field.

2. Supporting evidence

Held in my ePortfolio (evidence section): Weekly meeting minutes, Week 11; Initial Project Plan and Gantt chart; Presentation plan and responsibility chart; B3 Client Interaction Report (draft).

3. Reflection

What went well	Reading all the evidence together showed exactly where our records were strong and where they were weak. That honesty made the B3 report more useful.
What was difficult, and what I would change	I found weaknesses in my own records: meeting logs the client never signed or confirmed, and feedback entries without detail. Fixing the evidence index and the report plan cost time that I had not planned for.
How the group performed	The team accepted the findings of the record review without defensiveness and agreed to state them openly in B3.
Skills I used or developed	Critical evaluation of evidence and report planning.
Plan for next week	Write the recommendations in B3 and support the B1 and B2 documents.
