CET257 Enterprise Project: Assignment 3

Weekly Reflection: Week 12

Name	Shilu Chuke
Team	Team Speed (Team 6): Lift Right
Role	Team Leader and Project Manager
Week	Week 12 (October 2026, to submission on 11 October)
Project phase	Evaluate
Focus this week	Assessment 2 completion and final reflection

1. What I did this week

- Completed the B3 report with best and worst aspects and seven recommendations: agenda 48 hours before contact, two team members at every contact, a feedback register, minutes within 24 hours, a mid-build checkpoint, earlier feedback sessions, and boundaries with a dual-role client.
- As Team Leader, checked the Assessment 2 package against the brief and corrected inconsistencies: the client name, the project timeline, the poster's journey length, folder names and name spellings.
- Organised the self and peer assessment (B5) and the final pre-submission check, and compiled this individual portfolio and report.

2. Supporting evidence

Held in my ePortfolio (evidence section): B3 Client Interaction Report; B1 Design, Testing and User Documentation; B2 Zero-budget marketing plan; B4 Security Report.

3. Reflection

What went well	Group deliverables were finished on time. The automated test run (11 October) gave us honest evidence: 15 of 21 tests passed, T7 passed only in part, T20 and T21 failed, and three needed manual testing. Checking the whole package as a leader caught inconsistencies that individual authors had not seen.
What was difficult, and what I would change	The security test T21 failed (a worker can open the admin screen) and the offline test T20 failed. These weaknesses were documented in B4 but not fixed, and marketing actions such as the LinkedIn page and outreach emails were prepared but not carried out. I left the whole-package check too late.
How the group performed	Overall the team was reliable and honest. We were weaker on testing early enough and on follow-through after submission.
Skills I used or developed	Report writing, quality-checking a team's work, negotiating a fair contribution split and reflective practice.
Plan for next week	Submit the portfolio and report, and carry out the marketing actions if the

	studio continues.
